

VERI

Aguas de san martin de veri S.A.

Scope of the environmental management system

The Environmental Management System of AGUAS DE SAN MARTIN DE VERI S.A. complies with the requirements of the UNE-EN ISO 14001: 2015 standard for the collecting, packaging and storage of natural mineral water, as well as related activities.

The environmental management of AGUAS DE SAN MARTIN DE VERI S.A. is associated with the plants located at

- Carretera a Pont de Suert s/n. 22470 BISAURRI (Huesca).
- Carretera Nacional 260, km.387. 22465 EL RUN (Huesca). As well as their areas of influence.

Its purpose is to describe clearly the environmental management of the company, defining, among other aspects:

- The context, the stakeholders and their needs and expectations.
- The risks and opportunities related to environmental matters, legal requirements and other requirements.
- Actions planned to prevent and reduce the undesired effects of those risks.
- The processes that are necessary to prepare for and respond to potential emergency situations.

This is to ensure that the Environmental Management System achieves the expected results and continuous improvement.
